AN INSECURE WORLD

Many people have asked themselves where humanity is heading, when the distinction in our world between right and wrong has become more and more blurred. There's growing mistrust of political leaders and economic powerbrokers due to the epidemic of greed and egocentricity. Insecurity is rife and many feel powerless to improve their future. Reality Portal is an awareness-increasing documentary platform where no truth is taken for granted. Join us on a personal journey through TimeSpace with all senses open, which globally reflects this troubled period. The Reality Portal project presents war and peace, inner and outer balance, human rights and the full spectrum of behavioural possibilities. Reality is about threats, potential, truths and the future as a shared global project.

THE COMMON DENOMINATOR

Reality will be a totally boundless open plan documentary series, with an original approach, synergetically connected to a highly outstanding internet portal, where the common denominator is the search for truth. The presentation depicts a no-holds-barred multifaceted worldview, a journey where we meet lies, double standards, prejudice, egotism and violence – but also hope, love, dreams, creativity and visions about the future. Reality paints a visual extravaganza and initiates a rhythmic journey beyond prejudice through time and space.

YOU'RE EITHER WITH US OR YOU'RE AGAINST US

The increasing harshness in the attitudes of those in power with statements such as "You're either with us or you're with the terrorists" gives a simplified black/white picture of the world. Those in power are putting the focus on demonising sub-cultures, certain behaviour, minor transgressions of contrived law rather than homing in on real problems like increasing class gaps, injustice and instability. It has been said "Who controls the past, controls the present and the future". That's why our adventure starts with the origin of life. What is our worldview based upon and are there pieces of our past that do not fit into the official account of history? And are the missing pieces of the jigsaw part of a bigger mystery?

His Holiness Karmapa

THOUGHTS AND PERSONALITIES FROM AROUND THE WORLD

On our journey we will meet a wide range of personalities and be exposed to all sorts of experiences. Liza was threatened with forcible imprisonment by the Swedish authorities at a time when she had been offered job as a DJ in one of Amsterdam's most prestigious clubs. We will meet both the Dalai Lama and his holiness Karmapa. The former skinhead Mark got a new perspective of life through the rave-culture and works today as an Art-Director in a marketing company and as same time lives in an abandoned factory. We present a shaman from an indigenous South-American tribe who has experienced traveling into other realities and dimensions. The disillusioned former UN Assistant Secretary-General frankly reveals his philosophical take on right and wrong. Colourful personalities tell us about their reality and their knowledge on mankind and human affairs.

George W. Bush

Reality will show a multifaceted world, the aim of which is to widen understanding. Here follows some perspective and directions that will be covered in the documentary series and/or the internet portal.

1. TRUTH

One of the recurring themes permeating Reality Portal is the depiction of different perceptions of truth. Is there an actual truth or is truth always subjective? The question has to be asked "how is truth modified by dogmas, taboos, religion, politics and social structure? And how can what is right and wrong become wrong and right from one place or time to another? Reality takes us around the planet in search of different opinions on truth, a journey between different worlds and continents where the goal is to give the spectator an increased awareness of the state of Humanity, Mother Earth and the Universe.

2. THE WORLD POLITICAL PICTURE

Politics, power and religion have formed the framework for today's existential angst, where the politically correct truth is the base for our view on the world. The ruling elite wants to control our understanding of truth through different forms of overt and covert influence. Is it possible to see beyond propaganda and manipulation and reach your own "Reality"?

3. SEXUALITY

Why is diversity in sexuality so dangerous to many people? How can consensual sex be a threat? The view on sexuality varies a lot all over the world and also with different cultures. In India some transsexuals are considered to be divine. In Thailand 25 % of all boys growing up are transsexuals and within their culture it's considered more prestigious to make love to a "lady boy" than to a woman. However, in Thailand there's a lot of intolerance towards homosexuality. Amongst others, we will meet one of Thailand's best thai-boxers, a "lady boy". In southern Europe many guys have sex with other guys without considering them selves to be homosexuals. You are "straight" as long as you are not the passive part during the sexual act. It is fascinating to explore different views regarding sexuality and sexual roles. Is there a correct way to conduct one's sexuality and express one's feelings? Can sexual alienation force you to find your own truth? Perhaps we are all bisexual? How come seagulls are often lesbians and that some species change their sex when needed?

4. HISTORY

Mankind has through the ages had knowledge about realities that have been lost to us. How can we explain the sophisticated astronomical knowledge known by cultures long before our own? The "primitive" Dogon tribe in Mali had knowledge about elliptical orbits, the rings of Saturn, the moons of Jupiter and the Earth's rotation around its own axis without encyclopaedias or telescopes. How is it that scientists have found "the flower of life" symbol in both Egyptian, Central and South American pyramids as well as on Gotland island in Sweden? And what is the connection between this "flower of life" symbol and Leonardo da Vinci and sacred geometry? How come that inside the Cheops-pyramid there is a gigantic tub made of rock, comprising a single piece of granite with a melted side? What type of power makes granite melt? Are there alternative historical truths?

5. IN YOUR MIND

In which way does the human psyche influence our lives? In healthcare it is well known that the placebo-effect sometimes works as well as medicine. And who has not heard that faith can move any mountain? Which mental blockages prevent us from reaching our true potential? How come people in Africa smile four times more than in the west despite the fact that they only have a plain earth floor to sleep on and few external tools? How is it that Swedish people can live their entire life in the same house without ever having greeted their neighbours? What is hypnosis? How come Bruce Lee's punch from a few centimeters can make a man fly meters away? Are there any mental truths?

6. DANCE AND LAWS AGAINST DANCING

How important is dancing for the human experience? The rave culture, which by some, has been called the equivalent of the hippie movement, is blacklisted in Sweden but permitted in most other countries. In Sweden the rave culture is unjustifiably attacked as happened to jazz music in earlier times. Today raves in Europe are mainstream while jazz is regarded as refined. At a time of increasingly repressive laws and regulations, decreasing personal freedom, Sweden has repressed, marginalized and demonized the rave culture. Why are they frightened by dance, passion and spontaneity? Come and join an illegal street party and see the reactions for and against. Join in the world's biggest peace manifestation Love Parade where up to 2 million people come together and connect. We will meet hippies, artists, free-thinkers, philosophers and ravers and see how they live, think and feel.

Marc; former skinhead
Now an openminded raver

7. ENERGY

Why do more people commit suicide in April and May than in any other month? How is it that the CIA yearly invests billions into telekinetic research? What is the connection between ley lines and cancer? How do sunspot cycles affect life

on Earth and what makes a pigeon able to navigate home from a far distance? What are the micro- and macro cosmos? Surely if the moon can influence bodies of water with certain areas of the world experiencing differences between high and low water of 16 meters there have to be effects on human beings who are 70% water" What is energy and are there inventions generating 100% safe and clean Free Energy? And if there are why don't we hear more about them? Why don't we use more solar panels and wind power globally?

8. POLITICS AND EVIL

Does the word democracy mean anything anymore? Both Saddam Hussein and George W Bush claim to be democrats. Those in power are becoming increasingly dictatorial by putting limits on the possibilities for ordinary people to speak out freely. Politicians like Berlusconi take control of parties, companies, media and thereby get a monopoly on describing reality. Is there a popular will and how can we hear that? Is it right to kill for a good cause" and who determines what's good? Is it possible to measure sorrow and is some people's pain more important than others? What is terrorism and who conducts terror and in the interest of whom? Are there visionaries that can give alternatives to war and terror? We meet military personnel, "terrorists" and "thinkers" from all sides.

9. WAR OR INNER PEACE

Can one through increased inner peace neutralize the rapidly increasing outer imbalance? Can meditation and positive thinking contribute to greater worldwide human awareness? What is the synergy effect and how do we achieve peace? We traverse the planet in search of the subtle causes of the visible events. Why are there so many wars? Who makes money out of that and what is the hidden agenda? How come that support to the "Third World" from many western countries so often is tied to the sale of weapons? In which way is the burden of debts affecting the global imbalance? When the UN previously arranged a peace conference, all the leaders in the world were invited except the Dalai Lama, the leader of former Tibet, now an annexed province of China, a country where human rights are not taken seriously. China had exerted diplomatic pressure for this peaceful man not to come. Can rights and power co-exist?

10. FOOD, EATING AND ALL THAT

In Sweden one eats crayfish, in Asia dog or octopus. In Mexico there are more than 300 edible insects. One can make a mince of flies that are much richer in protein than hamburgers and could feed all of Africa. Is it true that there are monks in Tibet who never eat and purely live on air – prana? We will meet the man who was forced to eat his friend to survive. Can one mentally recover from such an experience?

TARGET GROUP AND PERSPECTIVES

Reality Portal won't be like anything else that's been shown. The documentary series will be universal as well as personal. The tempo varies between extremely slow and astoundingly fast" jumping between subjects, views, places, people, pictures, music, impressions, rhythm" and also gives possibilities for reflection and thought. Reality Portal will never lose the thread" a continuing search for truth, and a broader and deeper worldview. Reality is for everyone who thinks about life and why we're here" The purpose is to get the viewer to stop and reflect and react, or perhaps just think about what it means to be a human. The documentary series will spark debate and awaken thoughts within to inspire an exploration of one's own reality. It can also be used as a central focus for discussion amongst others by NGOs, schools and universities, regarding democracy, globalization and international justice. Reality is an awareness-increasing project aiming to bring back self-esteem and power to the people, and with that a more involved humanity and a greater potential for a more balanced peaceful tomorrow.

THE RECORDING - AROUND THE WORLD WITHOUT A BUDGET

The first part of the documentary was already filmed in 1998, and since then, the project's creative, truth-seeking souls have managed to capture reality in Africa, Asia and Europe, all done with empty pockets and borrowed equipment by openhearted curious minds driven forward through an unsteady world by a shared burning compassion for a greater global awareness. With no financial strings attached this guarantees a true, broad, unbiased perspective. With more than 300 hours of film, some of the world's most famous beings share their truth, put together through synchronicity, making us understand that we all have the power to create miracles, if we believe and open our selves for the unexpected. The recording so far, is mainly shot on Mini-DV, but more new and old media formats are used to put together information on the web an DVD for everybody. The documentary series will be in different languages with subtitles.

REALITYPORTAL.INFO - CONNECTING THE NEW MEDIA MOVEMENT

The old rigid media institutions, now in the hands of fewer and fewer, seem to be more and more aimed at bombarding humanity with crap, propaganda and/or advertisement for products no one really needs. Reality Portal will set a new standard by connecting WE THE PEOPLE and the flexible thought provoking NEW MEDIA MOVEMENT with guerrilla journalists and information terrorist from all walks of life, cross promoting ideas, inspirations, inventions and truths.

REALITY PORTAL.INFO - THE SYNERGETIC WEB PLATFORM

The documentary series can sometimes penetrate and focus on one subject, but will in general contain many people, places, themes and links, which means each sequence will be given a limited amount of time. The project is therefore symbiotically interconnected with a synergetic and organically growing web-platform,

a reality information base that gives the possibility of in-depth studies of all the news, subjects and people. This web-platform will function as a holistic portal expanding human thought by linking committed beings and the essence of the NEW MEDIA MOVEMENT, transforming the power of WE THE PEOPLE into rings on the water, like a conscious expanding earth-shaking planetary domino effect. Realityportal.info will be a global interconnecting structure for change, transformation and exposure of mind-bending revelations. A platform, news-source and meeting point for beings sharing a broader perspective of truth. Reality portal will connect humans seeking background and meaning that will deeply affect Earth and Humanity.

KEVIN ZAAR, DIRECTOR: MY STORY

Already as a 15 year old, banished by my father from my hometown I got acquainted with the harsh reality of exclusion. After years of being beaten with weapons and psychic torture both at home and in school there was no other way – "It's for the good of the family", my father said. I escaped to Stockholm with only 200 SEK (approx. 20 Euro) in my pocket. My homosexuality would have been to shameful to bare for my family. The lack of heart and empathy which so often penetrated my father's moods heavily affected me while growing up. I felt downgraded and unjustifiably treated. Early in life I was forced to take care of myself, something that isn't so easy when you're kicked out of the nest despite having a suppressed personality, into a world of duality and mindlessness. This severe awakening made me realize that the only way I could walk was on my own. I was forced to trust my inner power and strength. In a subjective world I started searching for my own truth. I tried everything from politics, group-sex, drugs, journeys through meditation, in an attempt to have a boundless perspective upon reality.

PEPTALK FROM THE TWILIGHT ZONE KEVIN IS TOLD TO FOLLOW HIS VISION

Thirteen years ago, on the 18th of October 1992 I happened to hypnotize my friend Per. His consciousness went back in time and ended up in Egypt. There he had a relationship with a goddess called The Daughter of the Sun. Her consciousness then entered his body and we communicated for approx. 2 hours. It might sound a bit "out of this world" or strange but actually happened. Like an Oracle in Delphi/ Shirley MacLaine thing, a peptalk from the Twilight Zone. This consciousness, I understood was not bound by time and space and had a broader understanding of the human experience. I was told that the visions of making a film about reality that I had previously felt but didn't know how to realize – would come true. I was told everything was energy and equal and that I'd been chosen to spread this information in a logical way, never to do things for egoistical reasons and to always follow my heart.

THE REALITY FOUNDATION

Financial support through donations and from foundations, NGOs and beings sharing the projects values for freedom of speech and inner balance will be sought and accepted. Money will never though be allowed to direct the information in any way. The Reality Portal is a Non Government Organization working for expanding the voice of the people and freedom of mind. THE FOCUS ENLARGES KEVIN ZAAR'S FINAL THOUGHTS

From a seed thought in 1992 and a feeling of powerlessness I cursed the Universe since I had no idea which way to go. I wanted to change the global imbalance but didn't know how. I never expected to be heard from the most mysterious source. After my "peptalk from the Twilight Zone", via synchronicity and through problems, obstacles, peace festivals, TV shows, interviews and parties I came to grow, and became ready to face my challenge. When I started working with this documentary I focused on the rave scene. I noticed how more and more of my dearest most creative friends had had enough. Today more than 30 of my friends have moved away from Sweden, to other countries where one has another view on right and wrong. The project has developed and focus enlarged hand in hand with my growing social commitment against injustice and for vulnerable groups. When I now look into the rear-view mirror I realize that what I've done since the "channelling thing" has led me forward towards this project which has involved interviews on national radio with artists and actors about life mysteries, programs about mercury poisoning, leylines and academics sharing their experiences outside of "the box". My own worldview and social network are constantly expanding. So now we're ready! Ready to show a boundless reality where the perception of truth is constantly changing"

*"Who controls the past
controls the future.
Who controls the present
controls the past."*

PRODUCTIONTEAM

In the work with Reality Portal we co-operate internationally with several directors, documentary filmmakers, artists and musicians from Holland, Sweden, Germany, England, Canada and the USA. We network, film, travel and create together. All share the vision of the project – an increased global awareness – by connecting devoted open-minded beings. In the future several creative reality crews will be working simultaneously around the globe capturing a broader perspective of truth.

Here's the essence of some of the outstanding beings energetically and emotionally involved in the awareness-increasing Reality Portal project:

KEVIN ZAAR - PIONEERING VISIONARY DIRECTOR AND ARTIST

Kevin has an inspiring, artistic creativity which has come to joyful use in roles like: radio and newspaper-reporter, talk show-host, festival-organizer, scriptwriter and director. While filming for the Reality Portal documentary in Sweden Kevin was brutally beaten and violently knocked down by the police and had to seek emergency hospital care. He was also threatened by the authorities for doing "immoral things" and had to go into exile.

JAN PALMBLAD - PRODUCER

Jan is a legal expert, producer and active board member of Greenpeace. He has previously written and produced the Swedish youth-movie 'Festival'. "I only do what I'm committed to 100%" – was Jan's answer when asked if he wanted to contribute to the development of Reality. And now Jan is a part of the gang. We're positively touched by his commitment and constantly get stimulated by his burning passion.

PER REJVING - PROJECT CONSULTANT

Per is the business consultant Kevin happened to hypnotize in 1992, the one that started channelling Hatshepsut telling Kevin to follow his heart and vision. Per has been fascinated by Egypt since childhood (!!!) He works as a consultant for some of the world's largest companies and has educated around 20,000 people, in how to lead projects. He's also involved in developing aid projects towards Africa and always returns to his favorite country Eritrea.

ZTEFAN BERTHA - PHOTOGRAPHER

Ztefan has 20 years experience as a photographer with Asia and Mexico as his specialties. For several years he's developed a close relationship with the Dalai Lama regarding spiritual development. No place is too far for this adventurer. Ztefan is personally involved in several projects aimed at increasing the focus on the problematic life situation for indigenous people.

BIRGITTA GRANSTRÖM - CAREER COACH AND PUBLISHER

Birgitta is a writer with her own book company. She has 15 years experience of running her own business and teaches positive thinking globally. She's a personal coach and a popular speaker. One realizes when she reveals her main interests, parachuting, scuba diving and facing fears, that Birgitta is never afraid to accept new challenges.

SOLEDAD LECCHINI - REPORTER

From Uruguay comes this South-American beauty who speaks no less than 7 languages fluently. With a vast developed photographic memory and never fully quenched curiosity, Soledad is a shining warm harmonic asset. She's a phenomenal reporter and a goddess on editing and filming.

DANIEL SCHEJA - DIRECTOR

Residing in New York, a global hot spot, Daniel is responsible for the American structure. Having an incredible social network, sharp mind and extreme open-mindedness he's a welcome part of the crew. Among many things" we hope to get closer acquainted with his neighbor, Yoko Ono Lennon.

FRIDA HALLEN - DOCUMENTARY FILMER AND REPORTER

She's one of Kevin's 30 friends who escaped, from Sweden due to repression. Frida lives in the heart of Amsterdam and is a positive, spiritual and multi creative being educated by the Dutch film institute. Frida arranges exciting parties and organizes the structure and planning for Holland. She's also a great reporter.

SOFIA LINDBLOM - REPORTER AND PR CO-ORDINATOR

Nothing is too way out or odd for Sofia when it comes to trying out different life experiences. She has worked as a go go-girl in Japan, a military ordering all the men and a diving instructor in Phuket just before the big Tsunami and experienced a broad variety of situations. Sofia is now ready to share Reality.

DR JAMES K.E. DWYER - HOLISTIC DOCTOR AND DRUID

Dr James is a balancing and harmonizing guiding force behind the Reality Portal. He always had an enquiring mind, asked awkward questions from an early age and sensed that many of his teachers were afraid of truth. His decision to press ahead with a personal quest to uncover what was really going on led him to explore many avenues and the Reality Portal project.
